

## Institutional Support Grants for Long-term Conceptual Development of a Research Organisation

- (1) The Institutional Support Grant for Long-term Conceptual Development of a Research Organisation (hereinafter referred to as “Support Grant for LCDRO”) is awarded to MENDELU in accordance with Act No. 130/2002 Coll. on Support of Research and Development from Public Funds and on Amendment to Certain Related Acts (the Support of Research and Development Act), as amended, by a decree of the Ministry of Education, Youth and Sport (MŠMT) in accordance with its established rules.
- (2) The Support Grant for LCDRO will be divided into five parts according to the percentages listed for the given criterion (definitions of the criteria are provided in paragraph no. 3)
- |  |     |
|--|-----|
| a) MENDELU point                         | 70% |
| b) External national projects            | 10% |
| c) External international projects       | 10% |
| d) Contractual research                  | 5%  |
| e) The Gregor Johann Mendel Grant Agency | 5%  |
- (3) Definition of the criteria for distribution of the Support Grant for LCDRO:
- a) *MENDELU point* is defined as the point value determined for all results of creative activity pursuant to the Methodology for Evaluation of the Results of Research Organisations valid for 2015–2016 and 2017+ applied in 2015–2018, this being in the structure specified below. Unless stated otherwise, designation of the types of results and their definitions correspond to the document *DEFINITION OF TYPES OF RESULTS: Separate Appendix No. 4 of Methodology for Evaluation of Research Organisations and Programmes for Targeted Support for Research, Development and Innovation approved by Government Resolution no. 107 of 8 February 2017.*

| • Licensed national patent 80 + 80*(amount of annual licence in M CZK)   |  |
| xvii. P (international patent, awarded)                                  | 240                                    |
| • Licensed national patent 240 + 240*(amount of annual licence in M CZK) |  |

---

<sup>1</sup> The field-specific AIS (Article Influence Score) is calculated as the quotient of the AIS of the given journal according to the WoS Core Collection in the year preceding the year for which the results are claimed and the coefficient regulating the field specifics of the result. The coefficient is determined by the product of the median and standard deviation of the AIS of journals included in the main groups of fields according to the Frascati Manual.

xviii.	G <sub>prot</sub>	10
xix.	Z <sub>plem</sub>	80
xx.	Z <sub>odru</sub>	80
xxi.	N <sub>map</sub>	15
xxii.	N <sub>pam</sub>	15
xxiii.	Z <sub>polop</sub>	40
xxiv.	Z <sub>tech</sub>	40
xxv.	F <sub>prum</sub> , G <sub>funk</sub> , H <sub>konc</sub> , N <sub>lec</sub> , S, V, V <sub>souhm</sub> , A, E, M, W, O	0

*Note: the authors' contribution is calculated for all results, i.e. "the point value of the result" is divided by "the number of authors" and the point share of MENDELU is determined according to the number of its domestic authors listed in the Personal Bibliographic Database.*

- b) *External national projects* are defined as the volume of funds allocated to MENDELU in 2015–2018 from national grants (with the exception of internal MENDELU grants) supporting science, research and innovation.
- c) *External international projects* are defined as the volume of funds in CZK allocated to MENDELU in 2015–2018 from international grants supporting science, research and innovation.
- d) *Contractual research* is defined in accordance with article 2.2.1 of the Community Framework for State Aid for Research, Development and Innovation 2014/C 198/01 as the volume of funds allocated to MENDELU in 2015–2018 for research performed for a specific enterprise as a service multiplied by the coefficient regulating the field specifics of the research.
- e) *The Gregor Johann Mendel Grant Agency* is defined as an internal grant agency which will award grants for projects in the defined categories via the Council for International Multidisciplinary Collaboration.
- (4) Calculation of shares of faculties and university institutes in the Support Grant for LCDRO will be performed on the basis of the following relationships:

- a. MENDELU point

$$M - POINT_i = D_{70} * b_{M-POINT,i}$$

where

$$b_{M-POINT,i} = \frac{B_{M-POINT,i}}{B_{M-POINT,celk}}$$

$M-POINT_i$	calculated level of Support Grant for LCDRO for i-th faculty / university institute,
$D_{70}$	70% of Support Grant for LCDRO,
$b_{M-POINT,i}$	share of i-th faculty / university institute in the point score for results of MENDELU in accordance with paragraph 3, point a),
$B_{M-POINT,i}$	point value corresponding to evaluation of the results of the i-th faculty / university institute in accordance with paragraph 3, point a),
$B_{M-POINT,celk}$	point value corresponding to evaluation of the results of all faculties and university institutes according to paragraph 3, point a)

- b. External national projects 10%

$$ENP_i = D_{10} * b_{ENP,i}$$

where

$$b_{ENP,i} = \frac{B_{ENP,i}}{B_{ENP,celk}}$$

$ENP_i$	calculated level of Support Grant for LCDRO for i-th faculty / university institute,
$D_{10}$	10% of Support Grant for LCDRO,
$b_{ENP,i}$	share of i-th faculty / university institute in the total volume of funds in accordance with paragraph 3, point b),

$B_{ENP,i}$  point value corresponding to the volume of funds of the i-th faculty / university institute in accordance with paragraph 3, point b),  
 $B_{ENP,celk}$  point value corresponding to the volume of funds of all faculties and university institutes in accordance with paragraph 3, point b)

c. External international projects 10%

$$EMP_i = D_{10} * b_{EMP,i}$$

where

$$b_{EMP,i} = \frac{B_{EMP,i}}{B_{EMP,celk}}$$

$EMP_i$  calculated level of Support Grant for LCDRO for i-th faculty / university institute,  
 $D_{10}$  10% of Support Grant for LCDRO,  
 $b_{EMP,i}$  share of i-th faculty / university institute in the total volume of funds in accordance with paragraph 3, point c),  
 $B_{EMP,i}$  point value corresponding to the volume of funds of the i-th faculty / university institute in accordance with paragraph 3, point c),  
 $B_{EMP,celk}$  point value corresponding to the volume of funds of all faculties and university institutes in accordance with paragraph 3, point c)

d. Contractual research 5%

$$SV_i = D_5 * b_{SV,i}$$

where

$$b_{SV,i} = \frac{B_{SV,i}}{B_{SV,celk}}$$

$SV_i$  calculated level of Support Grant for LCDRO for i-th faculty / university institute,  
 $D_5$  5% of Support Grant for LCDRO,  
 $B_{SV,i}$  share of i-th faculty / university institute in the total volume of funds in accordance with paragraph 3, point d),  
 $B_{SV,i}$  point value corresponding to the volume of funds of the i-th faculty / university institute in accordance with paragraph 3, point d),  
 $B_{SV,celk}$  point value corresponding to the volume of funds of all faculties and university institutes in accordance with paragraph 3, point d)

(5) Faculties and university institutes distribute the grant to individual centres according to the volume of output of creative activity in the previous period, quality of results of creative activity and potential for future results of creative activity given by the expected flows of funds defined in 3 b–e in the following structure:

- a) staffing costs;
- b) other non-investment costs;
- c) investment costs, if the rules so allow.
